I was Working from Home, (Self-employed)

EDUCATION

Akhbar El-Youm Academy, 6th Of October — GPA: 3.51

October 2022 - June 2027

I do like to get the certification from the academy to work with it

PROJECTS

Weather App

It's an application that when the user enters a name of a city or country the app will get the weather of the day that the user entered and 5 days after.

Calculator

It's an Website that calculates anything like a real calculator.

E-commerce

It's an E-commerce Website that I made. It has all types of Jordan shoes and I make a cart that when the user enters a shoe he needs it will transfer to the cart and the user can buy it from there.
